Workshop: Leading Above the Line

We are living and leading in a VUCA world (volatility, uncertainty, complexity, and ambiguity) – and that doesn't look like it's going to change anytime soon. What leaders need is a mindset shift and a set of tools that can help us lead in the midst of that complexity. This session will introduce and resource these leaders to “Lead Above The Line” in a way that is more creative, resourceful, and effective for their teams and organizations. Building off of this model we will explore how leaders can build trust across teams and the organization in a way that enhances engagement and improves results even in the midst of all of the VUCA pressures.

Outcomes of Leading From Above The Line:

- Gain a compelling vision for what it means to be a leader
- Understand the basic framework of “above and below the line” as a tool to enhance moment to moment leadership choices and impact
- Leave with tools for when our leadership impact is not ideal and how we can regain effectiveness
- Understand the basic building blocks of trust (and what erodes trust) and design strategies for increasing trust for the sake of greater organizational effectiveness and success
